About me

I am an aspiring software developer studying towards a Higher Certificate in Software Development. I have experience in Java, Python, JavaScript, HTML, CSS, and React. I am a quick learner and always aim to stay current with the latest tech advancements. I believe in writing clean and maintainable code and follow agile methodology. I enjoy teamwork and am eager to contribute to a company's success. My ultimate goal is to make positive impact through technology

Experience

JULY – SEPT 2022
